---

## OBJECTIVE

Aspiring Full-Stack developer with a current focus on Front-End technologies. Seeking a full-time opportunity as a Front-End Web Engineer in a professional software house to apply and grow my skills.

---

## PERSONAL STATEMENT

I'm a Linux enthusiast and a passionate programmer, I set high standards for myself to keep my work quality at its peak while maintaining early deadlines to stay as productive as possible.

---

## TECHNICAL SKILLS

- Programming: HTML-5, CSS-3, JavaScript, TypeScript.
  - Libraries/Frameworks: React.js, Next.js, Tailwind CSS.
  - Operating Systems: Linux.
- 

## PERSONAL SKILLS

- Communication — Gained through coordinating with multiple departments in the Bdaya organization.
  - Problem-Solving — Applied as a team leader in resolving real-time issues during projects.
  - Team Leadership — Led the Front-End department towards shared objectives and smooth collaboration.
  - Time Management — Balanced academic success and leadership responsibilities effectively.
  - Typing Speed — Up to 45 WPM.
- 

## EDUCATION

**Bachelor's Degree in Business Information Systems (BIS)**  
Completed at the Computer Information Systems (CIS) Department,  
New Cairo Academy, Fifth Settlement, Cairo, Egypt  
( 2022 – 2025 )

## PROFESSIONAL EXPERIENCE

**Web Development Instructor – Freelance**  
El Shorouk Academy, Cairo, Egypt  
( August – September 2024 )

Taught structured web development courses covering core technologies such as HTML5, CSS3, and JavaScript (ES6). Progressed with students to advanced topics including React.js, with a focus on component-based development, props and state management, and practical front-end application building.

---
